AMU – Cooperação e Solidariedade por um Mundo Unido (Lusophone Cooperation and Solidarity for a United World) is a private, non-profit association created in 1994 in Lisbon. Its aim is to promote the right for every people to fully express their individuality within the diversity of peoples and to participate with their unique contribution through the mutual knowledge and sharing of their spiritual, cultural and material resources.

AMU is based on the following principle: «To love the other person's homeland as our own». We thus strive to address issues on the relations among peoples and ethnic groups, which will contribute to create a more united world.
