

Protocol with Town Council S. Vicente and Associação Vicentina

2014-02-19

Last May, AMU Braga had a meeting with the Town Council of S. Vicente and Associação Vicentina, from the Parish of S. Vicente, in order to assess the joint support of the families in need from that council. The specific contribution of each institution was assessed in this meeting and a tripartite protocol was established. AMU Braga then applied to Banco Alimentar contra a Fome (Food Bank); this application is still under evaluation.

Apart from this protocol, it is equally important to check how each social institution can contribute in order to promote networking, provided they can combine their resources with those of other institutions. This will ultimately turn the dream of a more united world into a closer reality.
