AMU Lisbon Delegation / Project "GerAções"

2014-04-28

Seeking to promote the value of fraternity, we've launched a project for volunteers - GerAções - which is divided into two different activities: the Project "Crianças" and the Project "Adultos/Idosos".

The first one, located in the periphery of Lisbon - Camarate - aims not only at taking the children out of the streets but also at giving these children some notion of rules, moral education and a continuous school guidance and support. We want to bring them our joy and assist them.

The second activity focuses on the one time or continuous accompaniment for people that live alone or in nursing homes. The goal is to spend some time with them, listen to them and organize some occupational activities - attend to the specific needs of each person.
